Dear Sir

I refer to Commercial Vehicle Design Services Pty Ltd submission, on behalf of your company, concerning the possible alteration to the 45 km/h speed restriction imposed on your hydraulically steered Franna range of mobile cranes.

Based on the submission the Roads and Traffic Authority (RTA) will allow the Franna AT-14 to operate up to a maximum speed of 80 km/h provided the following conditions are adhered to:

- Hydraulic steering warning decal to be modified to display maximum speed limit of 80 km/h.
- Where the sign posted speed limit is less than 80 km/h the sign posted speed limit is not to be exceeded.

With regard to the other Franna mobile crane models, the RTA will require individual evaluation for each vehicle model to properly assess all safety implications before amending their speed limit restrictions.

Yours faithfully

A handwritten signature in black ink, appearing to be 'A. Jones' or similar, written over a faint, illegible typed name.
